<sup>•</sup> The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are the following:—

(1) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers, and (2) certain village and other lands not covered by forest but worked by the Forest Department and returned as forest lands by that department are not treated as forest in the returns of Agricultural Statistics.

Since then they have been added to receipts and are included in the above table under net miscellaneous receipts. The amounts involved in both the years 1932-33 and 1933-34 are 119 lakhs, 90 lakhs, in 1934-35 and 110 lakhs in 1935-96.

Note 2.—For purposes of proper comparison with past years the ratios in the last three lines of the statement with respect to 1032-33, 1033-34, 1934-35 and 1935-36 have been worked out as if the above sums of 119, 119, 90 and 110 lakhs were deducted from operating expenses.

Note 3.—Working expenses were reduced in 1930-31 by 166 lakhs by a credit from the Depreciation Fund for correction of past accounting adjustments.
